 Warning! Honeywell equipment should only be used in conjunction with the manufacturer's instructions. Failure to follow such instructions could result in serious injury including diminution or loss of vision.

EYE AND FACE PROTECTION

As a manufacturer of high-performance industrial safety eyewear, Honeywell provides protection that can be worn with total confidence in any situation. Years of research and technical development give us the ability to combine technically advanced capability with designs for comfort and style that deliver the highest levels of protection.

These products are supplied with the best coatings to resist the most demanding conditions, special lens tints for every task to optimise visual acuity and an impact resistance performance that exceeds current standards.

Every year, thousands of people suffer eye accidents in their workplace. 90% of these accidents can be avoided if suitable eye and face protection is used.

Honeywell protective Eye and Face Protection is designed not only to fulfill the primary function of effective protection, but also to make the products easy to wear, comfortable, and suitable for every user.

SAFETY EYEWEAR MARKINGS: HOW TO IDENTIFY APPLICATIONS AND PERFORMANCE

FRAME MARKINGS

HON 166 349 BT

Manufacturer's identifier |

Reference standard |

EN 166: standard
 EN 169: safety for welding tasks
 EN 170: protection against UV rays
 EN 171: protection against IR rays
 EN 172: industrial solar filters
 EN 175: Equipment for eye and face protection during welding allied processes

Mechanical resistance

F: impact: 45 m/s
B: impact: 120 m/s
A: impact: 190 m/s
T: resistance guaranteed between -5° C and 55° C

Specific areas of application

3: liquids (drips/splashes)
4: large dust particles
5: gas and fine dust particles
8: short circuit electric arc
9: hot solids and molten metals

LENS MARKINGS

2C-1.2 HON 1 BT KN

Filter performance and area of application

Code (area of application)

2 or **3:** UV filter
4: IR filter
5 or **6:** sunlight filter
 No n°: welding filter

Colour perception

C: colour perception unchanged

Safety class

1.2 to **6:** level of filtering of visible light

Mechanical resistance

F: impact: 45 m/s
B: impact: 120 m/s
A: impact: 190 m/s
T: resistance guaranteed between -5° C and 55° C

K: Resistance to surface damage by fine particles (optional).
N: Resistance to fogging (optional).

Optical class

1: no optical distortion (permanent wear authorised)

Manufacturer's identifier

HONEYWELL AVATAR

Designed with the worker in mind, the unique technology of Honeywell Avatar allows for eight points of adjustability in a customizable, stylish eyewear.

- Stylish, 9-base wrap-around lens provides peripheral vision and protection
- Soft, flexible nose pads prevent slipping
- Comfortable, soft brow frame, and lightweight frame for all-day wear
- Patented, indirect venting system allows for airflow to help minimize fogging
- Wire-core, fully adjustable, and flexible temples to fit almost any facial profile
- Available in a variety of frame and lens tints
- Available in anti-scratch, hard coat, and premium Hydroshield anti-fog coatings
- Product certified to EN 166 : 2001, PPE Regulation 2016/425

TURBOSHIELD

An improvement upon more traditional visors, with three patented features, Honeywell Turbosshield provides unparalleled comfort for longer wear, the easiest visor exchange system available, and optimal safety and balance.

- Perfect for those who are exposed to falling or flying objects, impact, splash, UV, and airborne debris
- Can be comfortably worn with most goggles, respiratory protection, and hearing protection
- Flexible head-cushioning suspension cradle provides 300% greater contact area than traditional suspensions
- Easy visor exchange with a simple push-button release
- Improved Protection with 50% more chin coverage compared to traditional visors
- Adjustment knobs are large and ergonomically designed for simple, easy adjustment – even wearing gloves
- Patented Hard Hat Adapter that allows visors to slide back 170 mm overhead when faceshield is in the upright position for better balance and weight distribution
- Product certified to EN 166 : 2001, PPE Regulation 2016/425

SUPERVIZOR

Robust, heavy-duty, helmet-mounted faceshield range with hearing protection compatibility.

- Robust, heavy-duty, helmet-mounted faceshield with hearing protection compatibility
- Compatible with a wide range of helmet designs
- The visor fixing method is secure and allows easy replacement
- It gives maximum protection, allowing full unrestricted head movement
- Full face protection: optional chin guard versions available for added protection
- Creased visor eliminates gaps and visor profile follows contours of the face
- Visor selection can be tailored to the specific hazard / application: mechanical, chemical, thermal, etc.
- The design allows the visor to be tilted whilst leaving the earmuffs in place covering the ears
- It also facilitates the wearing of the earmuffs without compromising the attenuation, whilst maintaining a maximum area of facial coverage
- Product certified to EN 166 : 2001, PPE Regulation 2016/425
